

How to run CDM Upgrade Pack

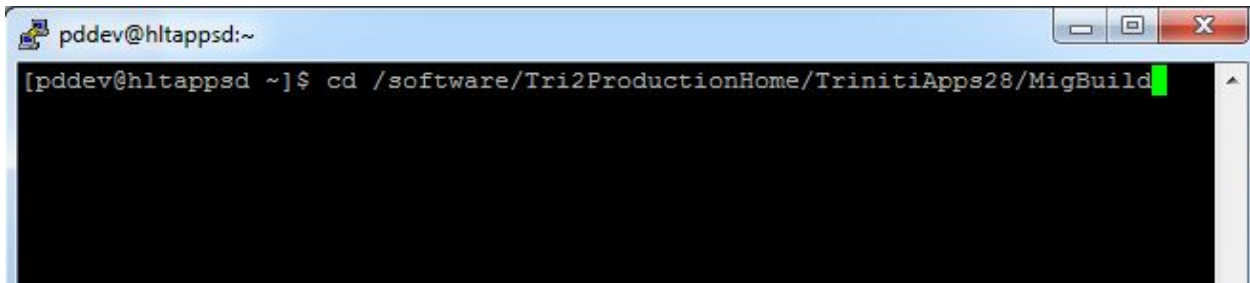

Prerequisites :

1. Create 'EDAPTER' schema.
2. Download CDM Upgrade pack and place the downloaded upgrade pack under the MigBuild of deployment folder Ex:(\$TRINITY_HOME\MigBuild) .

Note : Deployment server must be up.

Steps for Running Upgrade Pack :

1. Open command prompt and go to \$TRINITY_HOME\$/MigBuild Folder location

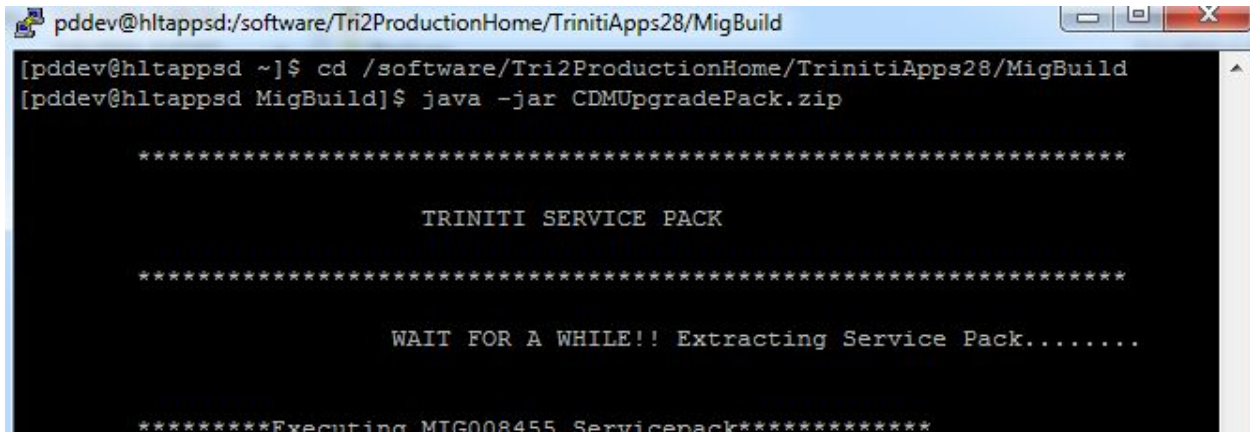

```

pddev@hltappsd:~
[pddev@hltappsd ~]$ cd /software/Tri2ProductionHome/TrinitApps28/MigBuild
  
```

2. Run the upgrade pack using below command.

Eg: java -jar CDMUpgradePack.zip and click on enter.

```

pddev@hltappsd:/software/Tri2ProductionHome/TrinitApps28/MigBuild
[pddev@hltappsd ~]$ cd /software/Tri2ProductionHome/TrinitApps28/MigBuild
[pddev@hltappsd MigBuild]$ java -jar CDMUpgradePack.zip

*****
TRINITY SERVICE PACK
*****

WAIT FOR A WHILE!! Extracting Service Pack.....

*****Executing MIG008455_Servicenpack*****
  
```

3. Provide 'Edapter' schema Database details.

```
*****SQL Migrations started*****

SQL_SQL Migration is in process...
Unable to establish the connection for 'EDAPTER' schema to execute '1_EDAPTER_SEQUENCE_DDL.sql'. Please provide valid details.

Enter UserName      : 
```

```
*****SQL Migrations started*****

SQL_SQL Migration is in process...
Unable to establish the connection for 'EDAPTER' schema to execute '1_EDAPTER_SEQUENCE_DDL.sql'. Please provide valid details.

Enter UserName      : edapter
Enter Password      : edapter
Is RacType?(Y/N)    : n
Enter Ip Address (or) Host : 115.112.81.34
Enter DB Port       : 1536
Enter SID           : R1224PRD
Given DB details are valid.
Executing...
```

4. You can proceed with the same APPS schema details by entering **Y** or please provide Database details for 'APPS' by entering **N**.

```
SQL_SQL Migration is in process...

Executing '3_APPS_CDMView1.sql' on 'APPS' schema with below database details:

Username           : apps
Is RacType         : no
Host IP (or) Address : hldbtest.global.trinity.com
Database Port      : 1522
SID                : R1224DEV

Do you want to continue with above details(Y/N): 
```

```

SQL_SQL Migration is in process...

Executing '3_APPS_CDMView1.sql' on 'APPS' schema with below database details:

Username           : apps
Is RacType         : no
Host IP (or) Address : hldbtest.global.trinity.com
Database Port      : 1522
SID                : R1224DEV

Do you want to continue with above details(Y/N):y
Executing...

```

Else enter **N** . And give apps database details.

```

Executing '3_APPS_CDMView1.sql' on 'APPS' schema with below database details:

Username           : apps
Is RacType         : no
Host IP (or) Address : 115.112.81.34
Database Port      : 1536
SID                : R1224PRD

Do you want to continue with above details(Y/N):N

```

```

Enter UserName           : apps
Enter PassWord           : apps
Is RacType?(Y/N)        : n
Enter Ip Address (or) Host : 11.112.81.34
Enter DB Port            : 1536
Enter SID                : R1224PRD

```

5. Similarly , you can proceed with the same STATEGPS schema details by entering **Y** or please provide Database details for 'stategps' by entering **N** .

```

SQL_SQL Migration is in process...

Executing '17_STATEGPS_CDMNodeGroup.sql' on 'STATEGPS' schema with below database details:

Username           : stategps
Is RacType         : no
Host IP (or) Address : HLTAPPSD.GLOBAL.TRINITY.COM
Database Port      : 1521
SID                : HLPDDEV

Do you want to continue with above details(Y/N):Y

```

```
